From Manulife Customers, Patricia and Charles, 2019

### Video Transcript

#### **Client facing**

**Patricia:** Coming from South Africa we have no medical here. Travel insurance is of vital importance. Our purpose of coming to Canada was because of our family and we found now that Charles is retired, we will make the move and live here. And we love it but it is a cultural shock, Calgary is a very cold place but you adjust. We've been with Manulife three and a half years I've had two incidents. Unfortunately, in 2018 I had a gallbladder problem and gallstones and unfortunately last year I saw an Ophthalmologists and he said I had a hole in the retina. With Manulife it was extremely easy. We were treated with the utmost respect. The first incident was \$48,000 and the second incident was \$9,000 and we were not left out of pocket at all.

**Charles:** It would have really been a catastrophic financial impact on ourselves as individuals traveling and likewise on our family that we are visiting. We would love to grow old with our family.

**Patricia:** And we will recommend Manulife as a travel insurance to any friends of ours. Our asset in life is our health and that's why we have gone through Manulife for our peace of mind.
